

DMI HONORS WISCONSIN TECHNICAL COLLEGE REPRESENTATIVES IN 2ND ANNUAL RISK IMPACT AWARD AND PRESENTS WISCONSIN TECHNICAL COLLEGE FOUNDATIONS WITH DONATION

Posted May 1, 2017 by DMI News Center

Dakota Dunes, SD: April 20, 2017 – At the Districts Mutual Insurance & Risk Management Services’ Risk Mitigation Forum, Steven Stoeger-Moore, (DMI President) and Bonnie Baerwald (DMI Board Chair) recognized the winners of DMI’s 2nd Annual Risk Impact Award. The award program, established in 2016, identifies and acknowledges individuals at the Technical Colleges for outstanding risk management efforts. Joe Des Plaines said, “Creating and maintaining a risk aware culture is a college-wide effort. DMI is looking to recognize the “boots on the ground” and “unsung heroes” of risk management and encouraging the concept that risk management is everyone’s responsibility. According to Des Plaines, all of the 2017 nominees were deserving of this recognition. Congratulations to the following winners: Brad Smith – Blackhawk Technical College; Cindy Buelow – Fox Valley Technical College; Thomas Cousino – Gateway Technical College; Ryan Skabroud – Lakeshore Technical College; Dr. James Campbell – Milwaukee Area Technical College; Michelle Adams – Moraine Park Technical College; Jamie Allar – Northcentral Technical College; Randy Schultz – Northeast WI Technical College; Heath Ahnen – Southwest WI Technical College; and Jessica Pintz – Western Technical College.

In addition to the Risk Impact Award, donations totaling \$80,000 were distributed by Steven Stoeger-Moore and Bonnie Baerwald to the (16) Wisconsin Technical College Foundations. Each college received a check for their Foundation in the amount of \$5,000; designated as an unrestricted funds donation. Since inception, DMI has donated \$416,000 in unrestricted funds to the (16) Wisconsin Technical College Foundations. According to Steven Stoeger-Moore, President of DMI, “This donation continues DMI’s efforts in supporting Technical Education through the efforts of each local Foundation and serves as a tangible benefit of being a Member of DMI – a company whose primary focus is on the needs of its Members. DMI fosters and supports the environment of cooperation and collaboration among the (16) Wisconsin Technical Colleges. This donation clearly illustrates how well that philosophy is serving our Members.”
